

Tools for Event Management

Is Your Event Coming Up? How Are You Managing?

With Exware's online Event Management system, you can cut costs, increase productivity, improve communication, and provide a better experience for your attendees.

- Web-based registration is available 24 x 7, and frees you and your staff from having to manually enter data and process payments.
- Email marketing allows you to send out e-vites, reminders, newsletters, and confirmations, and you can see up-to-the-second information thanks to real-time management reports.
- Standard features include calendaring and scheduling, event promotion, registration forms, surveying, e-commerce capability, custom and ad hoc reporting, and email tools for communicating with registrants, sponsors, and exhibitors.
